

# Short-Term Career & Technical Education Programs

## Electronic Assembly & Wiring Program

### Electronic Assembly & Wiring Program

The program prepares students for entry level positions in the Electronics Assembly field.

The requirements for program completion include wiring fundamentals, component assembly, NASA/DOD 2000A soldering techniques, harness making, printed circuit board loading, color codes, component identification, schematic symbols, inspection skills, and rework skills.

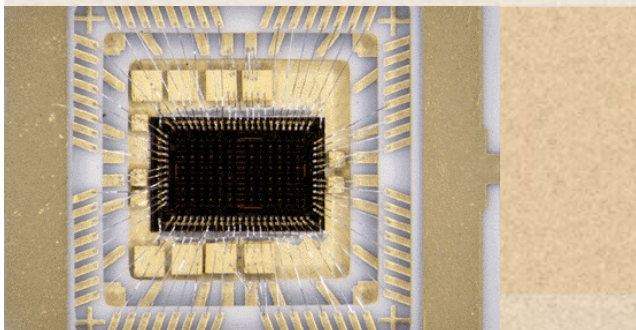

**VOC 9130 INTRODUCTORY ELECTRONICS**

**VOC 9248 INTRODUCTION TO ELECTRICAL TECHNOLOGY**

**VOC 4070 ELECTRONICS ASSEMBLY AND WIRING**
