

Short-Term Career & Technical Education Programs

Fashion Retail Academy Program

Fashion Retail Academy Program

The program prepares students for the workplace by improving confidence and image through self-presentation, dress, and appearance.

Students develop a sense of style and etiquette, learn how to choose suitable clothing, identify fabrics, learn merchandise marketing and makeup application.

The learning experience gained from this program prepares students for employment as retail salespersons at an entry-level, with the potential to become clothing retail supervisors and managers, and possibly fashion buyers and designers.
